

Model: MC101 / MC102
SKU: 9620015794 / 9620015795

Description of Issue:

Gas fitters have asked what the two connection points are at the back of the cooker. One connection point is the gas connection. One is an unused "mains shutoff thermocouple" connection. In this style of cooker with a lid, this thermocouple connection **MUST** not be used.

Thermocouple connection point.
MUST not use on these cookers.

Mains gas connection point.
5/16 SAE.

Mains gas shutoff valve. Activated by
cooker lid closing.
